

TIPS AND ADVICES FOR PRE-OILED FLOOR

(Prior to installation)

1. Store the boxes of pre-oiled flooring a minimum of 24 hours in the room where they will be installed. Do not pile more than 3 boxes high.
2. The floor installation should be the last step of the construction or renovation to avoid damages, if not, be sure to protect it with our protective cardboard membrane to avoid scratching, dust or paint stains.
3. The house should be heated at a steady 21C to stabilize the humidity level between 40 and 50% which should also be maintained during installation. You may use a humidifier or dehumidifier if needed.

TIPS AND ADVICES FOR PRE-OILED FLOOR

(After installation)

1. After installation, the floor may be covered with excessive dust and filth. We recommend vacuuming and cleaning with a well wrung mop and clear water at least once to remove the dust and dirt accumulation followed by cleaning with the residential spray cleaner to restore the patina.
2. Afterward you may start regular cleaning by washing with residential spray cleaner once a month. If more frequent cleaning is needed, we suggest washing with clear water and a well wrung mop. You may refill your spray pump bottle using 1 part of concentrated residential cleaner to 10 parts of water.
3. A humidifier and /or a dehumidifier may be used to control the humidity level between 40 and 50% to avoid possible swelling or shrinking. (Humidity should not vary more than 15% between seasons).
4. We suggest clean felt cushions under the legs of the chairs.
5. Wipe off any spilled liquid to avoid stains.
6. Never use a lot of water, use a well wrung mop.
7. Wood may discolour with over exposure to sun and light, therefore it is recommended to move furniture and rugs occasionally.
8. Sweep or vacuum regularly to avoid accumulation of dust, sand and small pebbles that may scratch your pre-oiled floor.
9. Never use cleaning products other than the pre-oiled floor cleaner recommended by the manufacturer which you can purchase at a retailer near you.
10. Use your repair kit to keep and restore the original beauty of your floor.
